

What size are your feet?

Everybody is different. Just as some of us have eczema, some of us have asthma and some of us wear glasses.

Can you answer these questions to show how different we all are?

1) How many of your class have...

blonde hair

brown hair

black hair

red hair

2) How many children in your class have freckles?

How many do not have freckles?

3) How many can roll their tongue?

How many can't?

4) How many children are left handed?

How many are right handed?

5) What size are your feet?

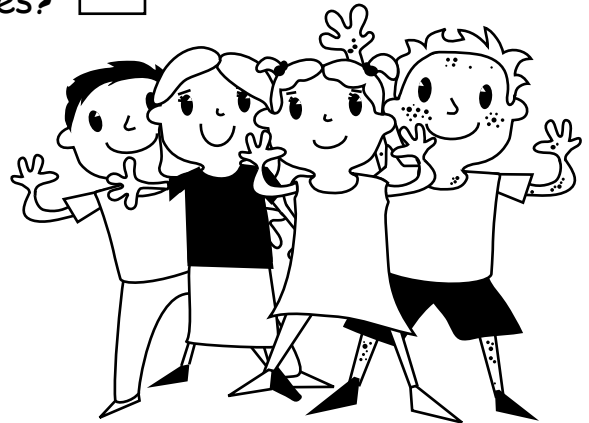

6) How many people in your class have the same size feet as you?

How many do not?

7) Who has the biggest feet in your class? _____

8) Who is the tallest person in your class? _____

10) Who is the smallest person in your class? _____

See! Everybody is different but just because someone may not be the same as you doesn't mean that you have to treat them any differently.
