

Journey of a Threadworm

Hi! I'm a threadworm.
I like to take a trip down the alimentary canal.
I make children's bottoms itch.

Use the words in the list to label the diagram. Choose the word and write it in the correct box.

bottom/anus

gall bladder

gullet

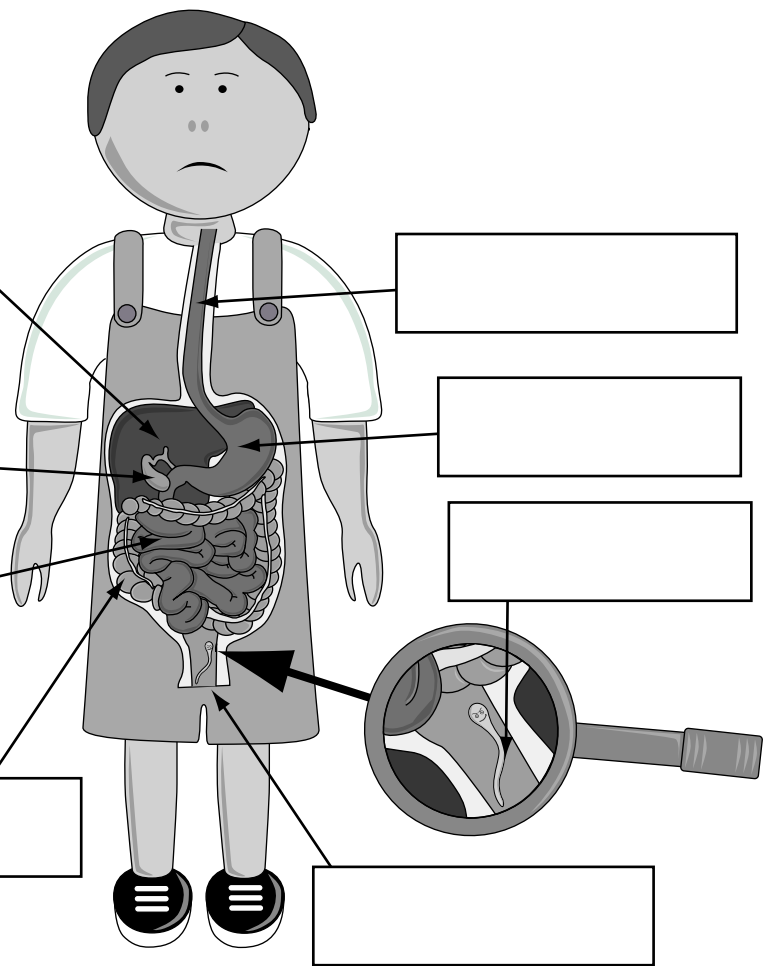

large intestine

threadworm

liver

small intestine

tummy/stomach

Can you write down the names of at least five very important inside parts of the body that are missing from this diagram?

Can you show where these missing parts would be?

What parts of the body make the alimentary canal?
